Company Name
Disclosure Date

Disclosure Year (year ended)

Network Waitaki Limited

31 August 2015

31 March 2015

Templates for Schedules 1–10 excluding 5f–5g Template Version 4.1. Prepared 24 March 2015

# **Table of Contents**

#### Schedule Schedule name **ANALYTICAL RATIOS** 2 REPORT ON RETURN ON INVESTMENT REPORT ON REGULATORY PROFIT 3 REPORT ON VALUE OF THE REGULATORY ASSET BASE (ROLLED FORWARD) 4 **REPORT ON REGULATORY TAX ALLOWANCE** 5a 5b **REPORT ON RELATED PARTY TRANSACTIONS** 5c REPORT ON TERM CREDIT SPREAD DIFFERENTIAL ALLOWANCE **REPORT ON COST ALLOCATIONS** 5d **REPORT ON ASSET ALLOCATIONS** 5e 6a REPORT ON CAPITAL EXPENDITURE FOR THE DISCLOSURE YEAR 6b REPORT ON OPERATIONAL EXPENDITURE FOR THE DISCLOSURE YEAR **COMPARISON OF FORECASTS TO ACTUAL EXPENDITURE** 7 8 REPORT ON BILLED QUANTITIES AND LINE CHARGE REVENUES 9a **ASSET REGISTER ASSET AGE PROFILE** 9b 9с REPORT ON OVERHEAD LINES AND UNDERGROUND CABLES 9d **REPORT ON EMBEDDED NETWORKS** 9e REPORT ON NETWORK DEMAND 10 REPORT ON NETWORK RELIABILITY

# **Disclosure Template Instructions**

These templates have been prepared for use by EDBs when making disclosures under clauses 2.3.1, 2.4.21, 2.4.22, 2.5.1, and 2.5.2 of the Electricity Distribution Information Disclosure Determination 2012.

# **Company Name and Dates**

To prepare the templates for disclosure, the supplier's company name should be entered in cell C8, the date of the last day of the current (disclosure) year should be entered in cell C12, and the date on which the information is disclosed should be entered in cell C10 of the CoverSheet worksheet.

The cell C12 entry (current year) is used to calculate disclosure years in the column headings that show above some of the tables and in labels adjacent to some entry cells. It is also used to calculate the 'For year ended' date in the template title blocks (the title blocks are the light green shaded areas at the top of each template).

The cell C8 entry (company name) is used in the template title blocks.

Dates should be entered in day/month/year order (Example -"1 April 2013").

# Data Entry Cells and Calculated Cells

Data entered into this workbook may be entered only into the data entry cells. Data entry cells are the bordered, unshaded areas (white cells) in each template. Under no circumstances should data be entered into the workbook outside a data entry cell.

In some cases, where the information for disclosure is able to be ascertained from disclosures elsewhere in the workbook, such information is disclosed in a calculated cell.

# Validation Settings on Data Entry Cells

To maintain a consistency of format and to help guard against errors in data entry, some data entry cells test keyboard entries for validity and accept only a limited range of values. For example, entries may be limited to a list of category names, to values between 0% and 100%, or either a numeric entry or the text entry "N/A". Where this occurs, a validation message will appear when data is being entered. These checks are applied to keyboard entries only and not, for example, to entries made using Excel's copy and paste facility.

# **Conditional Formatting Settings on Data Entry Cells**

Schedule 2 cells G79 and I79:L79 will change colour if the total cashflows do not equal the corresponding values in table 2(ii).

Schedule 4 cells P99:P105 and P107 will change colour if the RAB values do not equal the corresponding values in table 4(ii).

Schedule 9b columns AA to AE (2013 to 2017) contain conditional formatting. The data entry cells for future years are hidden (are changed from white to yellow).

Schedule 9b cells AG10 to AG60 will change colour if the total assets at year end for each asset class does not equal the corresponding values in column I in Schedule 9a.

Schedule 9c cell G30 will change colour if G30 (overhead circuit length by terrain) does not equal G18 (overhead circuit length by operating voltage).

# **Inserting Additional Rows and Columns**

The templates for schedules 4, 5b, 5c, 5d, 5e, 6a, 8, 9d, and 9e may require additional rows to be inserted in tables marked 'include additional rows if needed' or similar. Column A schedule references should not be entered in additional rows, and should be deleted from additional rows that are created by copying and pasting rows that have schedule references.

Additional rows in schedules 5c, 6a, and 9e must not be inserted directly above the first row or below the last row of a table. This is to ensure that entries made in the new row are included in the totals.

Schedules 5d and 5e may require new cost or asset category rows to be inserted in allocation change tables 5d(iii) and 5e(ii). Accordingly, cell protection has been removed from rows 77 and 78 of the respective templates to allow blocks of rows to be copied. The four steps to add new cost category rows to table 5d(iii) are: Select Excel rows 69:77, copy, select Excel row 78, insert copied cells. Similarly, for table 5e(ii): Select Excel rows 70:78, copy, select Excel row 79, then insert copied cells.

The template for schedule 8 may require additional columns to be inserted between column P and U. To avoid interfering with the title block entries, these should be inserted to the left of column S. If inserting additional columns, the formulas for standard consumers total, non-standard consumers totals and total for all consumers will need to be copied into the cells of the added columns. The formulas can be found in the equivalent cells of the existing columns.

# Disclosures by Sub-Network

If the supplier has sub-networks, schedules 8, 9a, 9b, 9c, 9e, and 10 must be completed for the network and for each sub-network. A copy of the schedule worksheet(s) must be made for each sub-network and named accordingly.

# Schedule References

The references labelled 'sch ref' in the leftmost column of each template are consistent with the row references in the Electricity Distribution ID Determination 2012 (as issued on 24 March 2015). They provide a common reference between the rows in the determination and the template.

# **Description of Calculation References**

Calculation cell formulas contain links to other cells within the same template or elsewhere in the workbook. Key cell references are described in a column to the right of each template. These descriptions are provided to assist data entry. Cell references refer to the row of the template and not the schedule reference.

# **Worksheet Completion Sequence**

Calculation cells may show an incorrect value until precedent cell entries have been completed. Data entry may be assisted by completing the schedules in the following order:

- 1. Coversheet
- 2. Schedules 5a-5e
- 3. Schedules 6a-6b
- 4. Schedule 8
- 5. Schedule 3
- 6. Schedule 4
- 7. Schedule 2
- 8. Schedule 7
- 9. Schedules 9a-9e
- 10. Schedule 10

Network Waitaki Limited Company Name 31 March 2015 For Year Ended SCHEDULE 4: REPORT ON VALUE OF THE REGULATORY ASSET BASE (ROLLED FORWARD) This schedule requires information on the calculation of the Regulatory Asset Base (RAB) value to the end of this disclosure year. This informs the ROI calculation in Schedule 2. EDBs must provide explanatory comment on the value of their RAB in Schedule 14 (Mandatory Explanatory Notes). This information is part of audited disclosure information (as defined in section 1.4 of the ID determination), and so is subject to the assurance report required by section 2.8. 4(i): Regulatory Asset Base Value (Rolled Forward) 31 Mar 11 31 Mar 12 31 Mar 13 31 Mar 14 31 Mar 15 for year ended (\$000) (\$000) (\$000) (\$000) **Total opening RAB value** 71,638 72,135 73,883 75,102 11 12 2,856 2,959 3,050 3,202 3,295 less Total depreciation 13 14 plus Total revaluations 1,619 1,125 620 1,128 63 15 16 5.970 2.331 4.149 3.322 plus Assets commissioned 2,628 17 226 199 18 less Asset disposals 19 20 plus Lost and found assets adjustment (43) 21 22 197 plus Adjustment resulting from asset allocation 29 23 24 Total closing RAB value 71,638 72,135 73,883 75,102 74,256 25 4(ii): Unallocated Regulatory Asset Base 27 Unallocated RAB \* 28 (\$000) (\$000) (\$000) (\$000) 29 Total opening RAB value 75,143 75,102 30 less 31 3,311 3,295 **Total depreciation** 32 plus 63 63 33 **Total revaluations** 34 plus 35 Assets commissioned (other than below) 1,025 36 Assets acquired from a regulated supplier 37 1,773 1,773 Assets acquired from a related party 38 Assets commissioned 2,798 2,628 39 40 Asset disposals (other than below) 41 Asset disposals to a regulated supplier 42 Asset disposals to a related party 43 Asset disposals 199 199 44 45 (43) plus Lost and found assets adjustment (43) 47 plus Adjustment resulting from asset allocation 74.256 Total closing RAB value 74.451 \* The 'unallocated RAB' is the total value of those assets used wholly or partially to provide electricity distribution services without any allowance being mode for the allocation of costs to services provided by the supplier that are not electricity distribution services. The RAB value represents the value of these assets after applying this cost allocation. Neither value includes works under construction.

## **SCHEDULE 5d: REPORT ON COST ALLOCATIONS**

This schedule provides information on the allocation of operational costs. EDBs must provide explanatory comment on their cost allocation in Schedule 14 (Mandatory Explanatory Notes), including on the impact of any reclassifications. This information is part of audited disclosure information (as defined in section 1.4 of the ID determination), and so is subject to the assurance report required by section 2.8.

# SCHEDULE 6b: REPORT ON OPERATIONAL EXPENDITURE FOR THE DISCLOSURE YEAR

This schedule requires a breakdown of operational expenditure incurred in the disclosure year.

EDBs must provide explanatory comment on their operational expenditure in Schedule 14 (Explanatory notes to templates). This includes explanatory comment on any atypical operational expenditure and assets replaced or renewed as part of asset replacement and renewal operational expenditure, and additional information on insurance.

This information is part of audited disclosure information (as defined in section 1.4 of the ID determination), and so is subject to the assurance report required by section 2.8.

# SCHEDULE 7: COMPARISON OF FORECASTS TO ACTUAL EXPENDITURE

This schedule compares actual revenue and expenditure to the previous forecasts that were made for the disclosure year. Accordingly, this schedule requires the forecast revenue and expenditure information from previous disclosures to be inserted.

EDBs must provide explanatory comment on the variance between actual and target revenue and forecast expenditure in Schedule 14 (Mandatory Explanatory Notes). This information is part of the audited disclosure information (as defined in section 1.4 of the ID determination), and so is subject to the assurance report required by section 2.8. For the purpose of this audit, target revenue and forecast expenditures only need to be verified back to previous disclosures.

Company Name Network Waitaki Limited

For Year Ended 31 March 2015

# Schedule 14 Mandatory Explanatory Notes

- 1. This schedule requires EDBs to provide explanatory notes to information provided in accordance with clauses 2.3.1, 2.4.21, 2.4.22, and subclauses 2.5.1(1)(f), and 2.5.2(1)(e).
- 2. This schedule is mandatory—EDBs must provide the explanatory comment specified below, in accordance with clause 2.7.1. Information provided in boxes 1 to 12 of this schedule is part of the audited disclosure information, and so is subject to the assurance requirements specified in section 2.8.
- 3. Schedule 15 (Voluntary Explanatory Notes to Schedules) provides for EDBs to give additional explanation of disclosed information should they elect to do so.

# Return on Investment (Schedule 2)

4. In the box below, comment on return on investment as disclosed in Schedule 2. This comment must include information on reclassified items in accordance with subclause 2.7.1(2).

# Box 1: Explanatory comment on return on investment

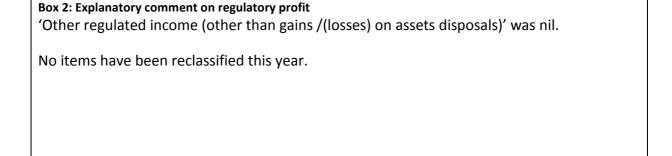

Network Waitaki Limited's Return on Investment of 3.61% this year is below the 75<sup>th</sup> percentile WACC estimate of 6.82%.

We do not consider that this is because Network Waitaki gives a poor return on the investment of its shareholders, the electricity consumers in the Waitaki District, but rather because it runs an efficient operation and annually distributes a proportion of its surplus as discounts back to its consumers.

No items have been reclassified.

# Regulatory Profit (Schedule 3)

- 5. In the box below, comment on regulatory profit for the disclosure year as disclosed in Schedule 3. This comment must include
  - a description of material items included in other regulated income (other than gains / (losses) on asset disposals), as disclosed in 3(i) of Schedule 3
  - 5.2 information on reclassified items in accordance with subclause 2.7.1(2).

Merger and acquisition expenses (3(iv) of Schedule 3)

- 6. If the EDB incurred merger and acquisitions expenditure during the disclosure year, provide the following information in the box below-
  - 6.1 information on reclassified items in accordance with subclause 2.7.1(2)
  - any other commentary on the benefits of the merger and acquisition expenditure to the EDB.

# Box 3: Explanatory comment on merger and acquisition expenditure

At the end of the 31 March 2015 year, Network Waitaki Limited and Network Waitaki Contracting Limited merged. There was a small amount (\$10K) of merger and acquisition expenditure related to legal fees for the transition to the new structure. The benefits that the merger will create by allowing the combined company to share an improved computer system will more than offset this expenditure.

No items were reclassified this year.

Value of the Regulatory Asset Base (Schedule 4)

7. In the box below, comment on the value of the regulatory asset base (rolled forward) in Schedule 4. This comment must include information on reclassified items in accordance with subclause 2.7.1(2).

# Box 4: Explanatory comment on the value of the regulatory asset based (rolled forward) The roll forward of Network Waitaki Limited's regulatory asset base was done using standard procedures.

No items were reclassified this year.

Regulatory tax allowance: disclosure of permanent differences (5a(i) of Schedule 5a)

- 8. In the box below, provide descriptions and workings of the material items recorded in the following asterisked categories of 5a(i) of Schedule 5a-
  - 8.1 Income not included in regulatory profit / (loss) before tax but taxable;
  - 8.2 Expenditure or loss in regulatory profit / (loss) before tax but not deductible;
  - 8.3 Income included in regulatory profit / (loss) before tax but not taxable;
  - 8.4 Expenditure or loss deductible but not in regulatory profit / (loss) before tax.

# Box 5: Regulatory tax allowance: permanent differences

Expenditure or loss in regulatory profit / (loss) before tax but not deductible of \$2K is from entertainment expenses incurred by Network Waitaki Limited.

Expenditure or loss deductible but not in regulatory profit / (loss) before tax of \$63K is from a movement in provisions in employee entitlements.

Regulatory tax allowance: disclosure of temporary differences (5a(vi) of Schedule 5a)

9. In the box below, provide descriptions and workings of material items recorded in the asterisked category 'Tax effect of other temporary differences' in 5a(vi) of Schedule 5a.

# Box 6: Tax effect of other temporary differences (current disclosure year)

Temporary differences are the tax effect of the difference between the tax and information disclosure treatment of capital contribution income. This amounts to \$202K depicted in Schedule 5a(vi) 'Tax effect of other temporary differences', which is made of the Tax effect of \$184K as shown in the table 1 below, plus a further \$18K for provisions shown in table 2.

# Table 1: derivation of \$184K Tax effect.

Amortisation of capital contributions (10% e	each year)			
	2012	2013	2014	2015
2012	62,477	62,477	62,477	62,477
2013		112,713	112,713	112,713
2014			145,978	145,978
2015				336,203
,	62,477	175,190	321,168	657,371
1000's	62	175	321	657
Tax effect	17	49	90	184

Table 2: derivation of \$18K in provisions for leave, etc.

	Opening	Closing	Movement
Annual leave		162,085 - 210,787	48,702
63 day adjustment		11,430 13,655	- 2,225
ACC		9,266 - 11,878	2,612
Long service Leave		5,364 - 19,589	14,225
			63,313
		Tax rate	28%
			17,728

Note that the capital contributions received this year have been more than double the previous year, reflecting a higher level of consumer investment particularly in irrigation and dairy related projects and this has contributed to the larger Tax effect.

Related party transactions: disclosure of related party transactions (Schedule 5b)

10. In the box below, provide descriptions of related party transactions beyond those disclosed on Schedule 5b including identification and descriptions as to the nature of directly attributable costs disclosed under subclause 2.3.6(1)(b).

#### **Box 7: Related party transactions**

All related party transactions have been disclosed in full in Schedule 5b.

#### Cost allocation (Schedule 5d)

11. In the box below, comment on cost allocation as disclosed in Schedule 5d. This comment must include information on reclassified items in accordance with subclause 2.7.1(2).

#### **Box 8: Cost allocation**

The Business Support operational expenditure category has costs that are not directly attributable. These include:

Labour
ACC
Professional Subscriptions
Training
Computers
Communications
Audit
Apparel
Bank Fees
Directors' Expenses
Printing and Stationery
Travel, Accommodation & Meals
Vehicle Operating Costs
Premises
Legal
Consulting

The allocation methodology used in Business Support is ABAA.

A proxy cost allocator has been used for Business Support.

No items were reclassified this year.

#### Asset allocation (Schedule 5e)

12. In the box below, comment on asset allocation as disclosed in Schedule 5e. This comment must include information on reclassified items in accordance with subclause 2.7.1(2).

#### Box 9: Commentary on asset allocation

The Non-network asset category has costs that are not directly attributable.

These include: Office Equipment, Software, Plant & Equipment.

The allocation methodology used in all cases is ABAA.

A proxy cost allocator has been used in all cases.

No items were reclassified this year.

#### Capital Expenditure for the Disclosure Year (Schedule 6a)

- 13. In the box below, comment on expenditure on assets for the disclosure year, as disclosed in Schedule 6a. This comment must include
  - a description of the materiality threshold applied to identify material projects and programmes described in Schedule 6a;
  - 13.2 information on reclassified items in accordance with subclause 2.7.1(2),

#### Box 10: Explanation of capital expenditure for the disclosure year

A materiality threshold of \$1,000 has been applied to identify material projects.

No items have been reclassified this year.

#### Operational Expenditure for the Disclosure Year (Schedule 6b)

- 14. In the box below, comment on operational expenditure for the disclosure year, as disclosed in Schedule 6b. This comment must include-
  - 14.1 Commentary on assets replaced or renewed with asset replacement and renewal operational expenditure, as reported in 6b(i) of Schedule 6b;
  - 14.2 Information on reclassified items in accordance with subclause 2.7.1(2);
  - 14.3 Commentary on any material atypical expenditure included in operational expenditure disclosed in Schedule 6b, a including the value of the expenditure the purpose of the expenditure, and the operational expenditure categories the expenditure relates to.

#### Box 11: Explanation of operational expenditure for the disclosure year

Assets replacement or renewal operational expenditure includes the following items:

- 33 kV Sub transmission overheard ("O/H") maintenance (insulators, cross arms etc.) \$39K
- 11 kV Distribution O/H maintenance (insulators, cross arms, etc.) \$299K

LV and Service Line O/H maintenance \$327K – Approximately \$180K of this was atypical due to the changeover of service lines connected to Chorus poles due to Chorus replacing a much greater number of poles than usual, which was done as part of their UFB rollout.

Zone substation transformer overhaul of tap changers and radiators at various sites \$145K – This was atypical expenditure to replace the tap changers and radiators on four transformers that were purchased at the same time and which are of lower quality than others on Network Waitaki Limited's network.

Distribution transformer non-routine maintenance at various sites \$44K

No items have been reclassified this year.

The atypical expenditure is all described above.

Variance between forecast and actual expenditure (Schedule 7)

15. In the box below, comment on variance in actual to forecast expenditure for the disclosure year, as reported in Schedule 7. This comment must include information on reclassified items in accordance with subclause 2.7.1(2).

#### Box 12: Explanatory comment on variance in actual to forecast expenditure

### **Expenditure of Assets**

**Consumer Connection:** - was significantly more than forecast as Network Waitaki Limited has no control over the demand for customer connections to its network. The forecast was based on historical trends and economic data available at the time of preparing the forecast.

**System Growth:** - actual expenditure was less than forecast, due to the Waitaki GXP project not completing in the financial year. This project experienced delays due to difficulties encountered at the design phase and to changes required by third parties involved in this project.

Asset Replacement & Renewal: - actual expenditure was in line with the forecast.

**Asset Relocations:**- asset relocations are mainly driven by requests from third parties. Actual expenditure in this category was nil as there were no requests for relocations. Network Waitaki Limited budgeted for a job related to work being done by a third party, but the third party decided not to proceed with that work, hence Network Waitaki Limited deferred this expenditure.

**Reliability, Safety, and Environment:** - Actual expenditure was considerably less than forecast mainly due to the Pukeuri Substation Upgrade not proceeding and also because of the significant amount of overspend on consumer connections described above. Consumer work is often given a higher priority if it is considered that expenditure on assets in this category could be deferred to the following year and it would not significantly impact on network reliability, staff and public safety or the environment from a deferment of a small duration.

# **Operational Expenditure**

**Service interruptions and emergencies:** – reflecting a downward trend of recent years, service interruptions and emergencies were less than anticipated. Network Waitaki Limited has reviewed its budgets to reflect this new trend for future years.

**Vegetation management:** - actual expenditure was greater than forecast, primarily due to the good growing conditions that the region experienced this year.

**Routine and corrective maintenance and inspection:**- actual expenditure was in line with the forecast.

**Asset replacement and renewal:-** was less than forecast due to 11 kV line renewal work not being completed and contracting resources being less than anticipated.

Information relating to revenues and quantities for the disclosure year

16. In the box below provide-

- 16.1 a comparison of the target revenue disclosed before the start of the disclosure year, in accordance with clause 2.4.1 and subclause 2.4.3(3) to total billed line charge revenue for the disclosure year, as disclosed in Schedule 8; and
- 16.2 explanatory comment on reasons for any material differences between target revenue and total billed line charge revenue.

#### Box 13: Explanatory comment relating to revenue for the disclosure year

Actual revenue was \$16,953K. Target revenue for the year was \$14,927K.

Actual revenue was 14% greater than target, almost all of which was from greater demand from irrigation customers.

Irrigation customers are a significant electricity user group on Network Waitaki Limited's network and due to the dryer than usual conditions this year, the consumption from these users was greater than anticipated.

Network Reliability for the Disclosure Year (Schedule 10)

17. In the box below, comment on network reliability for the disclosure year, as disclosed in Schedule 10.

#### Box 14: Commentary on network reliability for the disclosure year

Network Waitaki Limited continues to achieve high reliability on its network.

SAIDI and SAIFI Indexes were lower than last year and well within acceptable levels.

There are inherent limitations in the ability of Network Waitaki Limited to collect and record the network reliability information required to be disclosed in Reports 10(i) to 10(iv). Consequently there is no independent evidence available to support the completeness and accuracy of recorded faults and control over the completeness and accuracy of installation control point ('ICP') data included in the SAIDI and SAIFI calculations is limited throughout the year.

#### *Insurance cover*

18. In the box below, provide details of any insurance cover for the assets used to provide electricity distribution services, including-

- 18.1 The EDB's approaches and practices in regard to the insurance of assets used to provide electricity distribution services, including the level of insurance;
- 18.2 In respect of any self insurance, the level of reserves, details of how reserves are managed and invested, and details of any reinsurance.

#### Box 15: Explanation of insurance cover

Network Waitaki Limited insures its vehicles and buildings (including substations) and has public liability insurance. It does not insure its network, e.g. poles and lines, as the premiums to do so would be prohibitive. It does not self-insure.

#### Amendments to previously disclosed information

- 19. In the box below, provide information about amendments to previously disclosed information disclosed in accordance with clause 2.12.1 in the last 7 years, including:
  - 19.1 a description of each error; and
  - 19.2 for each error, reference to the web address where the disclosure made in accordance with clause 2.12.1 is publicly disclosed.

#### Box 16: Disclosure of amendment to previously disclosed information

- 1. While it is not material, in the 2014 Disclosures, Schedule 5a. Regulatory Tax Allowance, the Closing Deferred Tax was -\$2,230K. However, it has now come to light that this total should have been -\$1,334K, a difference of \$896K, which while not material, Network Waitaki has chosen to note the discrepancy here. This was because of an error in the treatment of capital contributions' related temporary differences in 2012-2014, which should have been treated as per the methodology depicted in Schedule 14, Box 6: "Tax effect of other temporary differences (current disclosure year)."
- 2. In 2014, Schedules 5a. Regulatory Tax Allowance, the Closing sum of regulatory tax asset values was \$32,550K. However, it has now come to light that this total should have been \$35,622K, a difference of \$3,072K. This was due to assets commissioned being erroneously recognised as net of capital contributions in 2012 and 2013.

The previous disclosures which contain the errors noted in points 1 and 2 above can be found at the following links:

# Schedule 14a Mandatory Explanatory Notes on Forecast Information

- 1. This Schedule requires EDBs to provide explanatory notes to reports prepared in accordance with clause 2.6.6.
- 2. This Schedule is mandatory—EDBs must provide the explanatory comment specified below, in accordance with clause 2.7.2. This information is not part of the audited disclosure information, and so is not subject to the assurance requirements specified in section 2.8.

Commentary on difference between nominal and constant price capital expenditure forecasts (Schedule 11a)

3. In the box below, comment on the difference between nominal and constant price capital expenditure for the current disclosure year and 10 year planning period, as disclosed in Schedule 11a.

Box 1: Commentary on difference between nominal and constant price capital expenditure forecasts

Network Waitaki Limited has used the following predictions for CPI to adjust constant price forecasts
to the nominal dollars expected to apply in each forecast year:

CY+1 no CPI adjustment has been made.

CY+2 and CY+2, predictions of annual CPI for the year ended 30 September (mid-year) of the year being forecast and have been taken from "Appendix A Summary tables", of the Reserve Bank of New Zealand Monetary Policy Statement, December 2014.

The Reserve Bank made predictions out to 31 December 2017 and Network Waitaki Limited has carried the Reserve Bank's predictions for 31 December 2017 out to CY+4, CY+5, CY+6, CY+7, CY+8, CY+9 and CY+10.

For 1 April 2015 to 31 March 2016, CY+1: N/A

For 1 April 2016 to 31 March 2017, CY+2: 1.9%

For 1 April 2017 to 31 March 2018, CY+3: 2.1%

For 1 April 2018 to 31 March 2019, CY+4: 2.1%

For 1 April 2019 to 31 March 2020, CY+5: 2.1%

For 1 April 2020 to 31 March 2021, CY+6: 2.1%

For 1 April 2021 to 31 March 2022, CY+7: 2.1%

For 1 April 2022 to 31 March 2023, CY+8: 2.1%

For 1 April 2023 to 31 March 2024, CY+9: 2.1%

For 1 April 2024 to 31 March 2025, CY+10: 2.1%

Commentary on difference between nominal and constant price operational expenditure forecasts (Schedule 11b)

4. In the box below, comment on the difference between nominal and constant price operational expenditure for the current disclosure year and 10 year planning period, as disclosed in Schedule 11b.

**Box 2: Commentary on difference between nominal and constant price operational expenditure forecasts**Network Waitaki Limited has used the following predictions for CPI to adjust constant price forecasts to the nominal dollars expected to apply in each forecast year:

CY+1 no CPI adjustment has been made.

CY+2 and CY+2, predictions of annual CPI for the year ended 30 September (mid-year) of the year being forecast and have been taken from "Appendix A Summary tables", of the Reserve Bank of New Zealand Monetary Policy Statement, December 2014.

The Reserve Bank made predictions out to 31 December 2017 and Network Waitaki Limited has carried the Reserve Bank's predictions for 31 December 2017 out to CY+4, CY+5, CY+6, CY+7, CY+8, CY+9 and CY+10.

For 1 April 2015 to 31 March 2016, CY+1: N/A

For 1 April 2016 to 31 March 2017, CY+2: 1.9%

For 1 April 2017 to 31 March 2018, CY+3: 2.1%

For 1 April 2018 to 31 March 2019, CY+4: 2.1%

For 1 April 2019 to 31 March 2020, CY+5: 2.1%

For 1 April 2020 to 31 March 2021, CY+6: 2.1%

Company Name Network Waitaki Limited

For Year Ended 31 March 2015

# Schedule 15 Voluntary Explanatory Notes

- 1. This schedule enables EDBs to provide, should they wish to
  - additional explanatory comment to reports prepared in accordance with clauses 2.3.1, 2.4.21, 2.4.22, 2.5.1 and 2.5.2;
  - information on any substantial changes to information disclosed in relation to a prior disclosure year, as a result of final wash-ups.
- 2. Information in this schedule is not part of the audited disclosure information, and so is not subject to the assurance requirements specified in section 2.8.
- 3. Provide additional explanatory comment in the box below.

#### Box 1: Voluntary explanatory comment on disclosed information

- 1. Network Waitaki Limited received \$143K of Transpower Loss Rental Rebates during the year. However, in accordance with the advice from the Commerce Commission's latest issues register, this has not been included in Schedule 3(i) "Other regulated income (other than gains / (losses) on asset disposals)"; the value for which is nil in the main ID Schedules.
- Transactions with Network Waitaki Contracting Limited (NWCL), Network Waitaki's former field services group company, have been subject to related party valuation rules and are disclosed in ID Schedule 5b. Commissioned assets built by NWCL have been disclosed in the related party category of commissioned assets in Schedule 4, row 37. Network Waitaki Limited and NWCL merged with one another on 31 March 2015.

# Schedule 18: Certification for Year-end Disclosures Clause 2.9.2

#### We, CLARE MARGARET KEARNEY and ANTHONY JAMES WOOD

Being directors of **Network Waitaki Limited** certify that, having made all reasonable enquiry, to the best of our knowledge-

- a) the information prepared for the purposes of clauses 2.3.1, 2.3.2, 2.4.21, 2.4.22, 2.5.1, 2.5.2, and 2.7.1 of the Electricity Distribution Information Disclosure Determination 2012 in all material respects complies with that determination; and
- b) the historical information used in the preparation of Schedules 8, 9a, 9b, 9c, 9d, 9e, 10, and 14 has been properly extracted from Network Waitaki Limited's accounting and other records sourced from its financial and non-financial systems, and that sufficient appropriate records have been retained.

In respect of related party costs and revenues recorded in accordance with sub-clauses 2.3.6(1) (when valued in accordance with clause 2.2.11(5)(h)(ii) of the Electricity Distribution Services Input Methodologies Determination 2010), 2.3.6(1)(f) and 2.3.7(2)(b), we certify that, having made all reasonable enquiry, including enquiries of our related parties, we are satisfied that to the best of our knowledge and belief the costs and revenues recorded for related party transactions reasonably reflect the price or prices that would have been paid or received had these transactions been at arm's-length.

CLARE MARGARET KEARNEY

 $\bigcup$ 

Date: 24/08/15

# Independent Auditor's Report

# To the Directors of Network Waitaki Limited and to the Commerce Commission

The Auditor-General is the auditor of Network Waitaki Limited (the company). The Auditor-General has appointed me, Mark Bramley, using the staff and resources of PricewaterhouseCoopers, to provide an opinion, on her behalf, on whether Schedules 1 to 4, 5a to 5g, 6a and 6b, 7, the SAIDI and SAIFI information disclosed in Schedule 10 and the explanatory notes in boxes 1 to 12 in Schedule 14 ('the Disclosure Information') for the disclosure year ended 31 March 2015, have been prepared, in all material respects, in accordance with the Electricity Distribution Disclosure Information Determination 2012 (the 'Determination').

#### Directors' responsibility for the Disclosure Information

The directors of the company are responsible for preparation of the Disclosure Information in accordance with the Determination, and for such internal control as the directors determine is necessary to enable the preparation of the Disclosure Information that is free from material misstatement.

#### Auditor's responsibility for the Disclosure Information

Our responsibility is to express an opinion on whether the Disclosure Information has been prepared, in all material respects, in accordance with the Determination.

We conducted our engagement in accordance with the International Standard on Assurance Engagements (New Zealand) 3000: Assurance Engagements Other Than Audits or Reviews of Historical Financial Information issued by the External Reporting Board and the Standard on Assurance Engagements 3100: Compliance Engagements issued by the External Reporting Board.

These standards require that we comply with ethical requirements and plan and perform our audit to provide reasonable assurance (which is also referred to as 'audit' assurance) about whether the Disclosure Information has been prepared in all material respects in accordance with the Determination.

An audit involves performing procedures to obtain evidence about the amounts and disclosures in the Disclosure Information. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Disclosure Information, whether due to fraud or error or non-compliance with the Determination. In making those risk assessments, the auditor considers internal control relevant to the company's preparation of the Disclosure Information in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.

An audit also involves evaluating:

- The appropriateness of assumptions used and whether they have been consistently applied;
- The reasonableness of the significant judgements made by the directors of the company.

#### Use of this report

This independent auditor's report has been prepared for the directors of the company and for the Commerce Commission for the purpose of providing those parties with independent audit assurance about whether the Disclosure Information has been prepared, in all material respects, in accordance with the Determination. We disclaim any assumption of responsibility for any reliance on this report to any person other than the directors of the company or the Commerce Commission, or for any other purpose than that for which it was prepared.

#### Scope and inherent limitations

Because of the inherent limitations of an audit engagement, and the test basis of the procedures performed, it is possible that fraud, error or non-compliance may occur and not be detected.

We did not examine every transaction, adjustment or event underlying the Disclosure Information nor do we guarantee complete accuracy of the Disclosure Information. Also we did not evaluate the security and controls over the electronic publication of the Disclosure Information.

The opinion expressed in this independent auditor's report has been formed on the above basis.

#### Independence

When carrying out the engagement we followed the independence requirements of the Auditor-General, which incorporate the independence requirements of the External Reporting Board. We also complied with the independent auditor requirements specified in the Determination.

The Auditor-General, and her employees, and PricewaterhouseCoopers and its partners and employees may deal with the company on normal terms within the ordinary course of trading activities of the company. Other than any dealings on normal terms within the ordinary course of business, this engagement and the annual audit of the company's financial statements, we have no relationship with or interests in the company.

## Basis for Qualified Opinion on Schedules 10(i) to 10(iv)

As described in Box 14 of Schedule 14, there are inherent limitations in the ability of the Company to collect and record the network reliability information required to be disclosed in Schedules 10(i) to 10(iv). Consequently there is no independent evidence available to support the completeness and accuracy of recorded faults and control over the completeness and accuracy of interconnection point ('ICP') data included in the SAIDI and SAIFI calculations is limited throughout the year.

There are no practical audit procedures that we could adopt to confirm independently that all the faults and ICP data was properly recorded for the purposes of inclusion in the amounts relating to quality measures set out in Schedules 10(i) to 10(iv). Because of the potential effect of the limitations described above, we are unable to form an opinion as to the completeness and accuracy of the data that forms the basis of the compilation of Schedules 10(i) to 10(iv).

In these respects alone we have not obtained all the recorded evidence and explanations that we have required.

#### **Qualified Opinion**

In our opinion, except for the matters described in the Basis for Qualified Opinion paragraph above:

- As far as appears from an examination of them, proper records to enable the complete and accurate compilation of the Disclosure Information have been kept by the Company;
- The information used in the preparation of the Disclosure Information has been properly extracted from the Company's accounting and other records and has been sourced, where appropriate, from the Company's financial and non-financial systems; and
- The Company has complied with the Determination, in all material respects, in preparing the Disclosure Information.

Mark Bramley PricewaterhouseCoopers On behalf of the Auditor-General
