| Other Details: | |

The Company making this request:

- Agrees to install full length insulating skid rails over the top, appropriate to the type of load, to prevent snagging overhead power lines (if required in conditions below). NOTE: The load will not proceed unless NWL escort considers the skid rails satisfactory.
- Agrees that any Consent granted will be valid only for the date and times entered on this form.
- Declares that the information entered, including the date, time of entry and maximum height is correct.
- Agrees, if the information entered is incorrect, and as a result damage is suffered, to indemnify and keep indemnified Network Waitaki Ltd (NWL) against such damage, including consequential damage and legal costs associated with the same.
- Agrees to take all due care, whether or not the load is escorted.
- Understands that the issuing of this Consent by NWL does not exempt the Consent holder from liability arising from damage to NWL network caused by the load, whether it is escorted or not.
- Agrees to abide by the directions of NWL escort in respect to safeguarding of NWL network conductors and associated equipment during the transport of this load.
- Agrees that remote hydraulic operation of the load height may only be activated when approved by the NWL escort.
- Agrees to pay all charges in connection with the transport of this load.
